

ACT launches Fibernet

Chennai: Internet service provider ACT (Atria Convergence Technologies Pvt. Ltd.) has launched its new broadband brand, ACT Fibernet in Chennai with 60 Mbps plan. Bala Malladi, Group CEO of the ACT Group said, "We believe that ACT is at the forefront of driving Internet consumption in India, not just in terms of growing the market but also changing the online user behaviour and enhancing the way users experience this medium." ACT plans to invest a substantial amount of money to reach the milestone of 1 million subscribers in the next 18 months, he added.
