ACT broadband has launched a 40 mbps ACT Fiber net services for Vijayawada and Eluru from Wednesday onwards. Commenting on the launch, the CEO of ACT Group Bala Malladi said "The company has been pioneering in the industry and has reached top four position across South India with about 8 lakh users.

Started in the year 2003, ACT broadband has gained massive popularity and clients in a span of just 5 years. The launch of 40 mbps for Rs 1499 is a sensation for the home bound users who can access to a 100 GB download limit and 512 kbps post FUP speed."

Sunder Raju, MD, said "ACT is known for delivering high speed internet and high end performance. Over 75 per cent of the market share in Hyderabad is of ACT's and is leading to expansion in the
